

RE: Telephone Consumer Protection Act

Since signing up for protection under the "Do Not Call" law my family can enjoy dinner once again.

I do not want telemarketers invading the privacy I feel in my home. As a taxpayer and a voter, I have a right to not being assaulted at home by pushy telemarketers. If they came to my door I could have them arrested, I should have the same rights when it comes to them calling my house.

Please do not remove or revoke any part of this Act which has made the quality of my life so much better.

Thank you,

Marlene Den Bleyker
